## ABOUT

I regard myself to be a very open minded person, like to solve new challenges, especially when it comes to coding. I think of myself as a hard-working person but at the same time I like to enjoy the life for example walking around with friends, doing sport, watching movies.

## PERSONAL PROJECTS

### InstaPixy | MAY 2021 – PRESENT

- Social media web application with multitude of features, similar to Instagram, Twitter and Facebook. The user can create a new account, upload their profile picture, post pictures, react to other users' post, comment on them, and bookmark them, search through other users' posts and view their profile etc. Additionally, InstaPixy users can have a group conversation.
- Tech Used : Bootstrap, EJS, NodeJS, MongoDB, ExpressJS etc.
- InstaPixy Website Link : <https://instapixy.herokuapp.com/explorer>

### Dance+ Academy Website | OCT 2020 - JUL 2021

- Dance+ Academy is a Full-Stack Web Application, provides a variety of features. This website contains all the necessary information about the academy. Registrants' data is kept in our database. Registrants can also pay their registration fees by utilizing the payment gateway integrated on the website. This website also allows candidates to buy swags. Registered candidates and Buyers will receive a confirmation SMS. In addition, the website offers a Voice Assistant that can answer users' questions and handle basic tasks.
- Tech Used :HTML, CSS, EJS, NodeJS, MongoDB, ExpressJS etc.
- Link of the Website : <https://danceplusacademy.herokuapp.com/>

### Weather WebApp | DEC 2020 - JAN 2021

- Weather WebApp is a simple weather forecast website which uses some APIs to fetch 5 day/3 hour forecast data from OpenWeatherMap and to fetch places, cities, countries etc.
- Link of the Website : <https://realtimeweatherappv2.herokuapp.com/>

### Dictionary WebApp | MAR 2021

- Dictionary WebApp is a simple website which uses some APIs to fetch data from dictionaryapi and display the meaning of the words.
- Link of the Website : <https://dictionaryappv1.herokuapp.com/>

### TakeNote WebApp | OCT 2020

- TakeNote WebApp is a static website without any database. The notes are persisted temporarily in the local storage.
- Link of the Website : <https://realtimeweatherappv2.herokuapp.com/note>

## ACHIEVEMENTS

|      |                               |   |
|------|-------------------------------|---|
| 2021 | Secured 20 out of 4000+ Geeks | University Rank in <a href="#">GeeksForGeeks</a>    |
